Reorganization of FIN and Workforce: Discussed the reorganization of these two offices.

CREA Office Staff: Have received over 300 applications.

IMT Quarterly Meeting: In the meeting the replacement of laptops and the capstone/email projected were discussed. Question about those getting new laptops and whether Group wise emails would disappear at that time.

IP Pilot: Update about bargaining and the reclassification process.

Credit Hours: Working on completing the survey. The committee has been working on this.

Telework: Have met a few times with management. CREA is working on counter proposal.

IT Centralization: CREA has requested information on the contractor, the mission, and the timeline. There are concerns about: the rest of LOC taking resources from CRS; the timeliness of CRS compared to the rest of LOC whose mission is not as time sensitive as CRS's. Concerns have been raised that there may not be an understanding of what makes CRS different from other components in the LOC. CREA is also concerned that the consultant is only talking to managers, and managers may not be in the best position to voice concerns (e.g., they are employees at will).
